Subject: Open Trustee Position

Greeting,

I am voluntarily submitting a basic BIO so that you will be aware of my social status, my professional history and my past position as a Trustee, for our previous subdivision.

- I am married (36 years) to my wife Lisa, we have two daughters that are married and we have six grandchildren
- We moved to Tiara at the Abbey in June of 2013, after selling our home in Arnold where we raised our family.
- I retired from a Government Agency in 2019 at 56 years old with 34 years of service. I currently work hourly as a contractor conducting various applications such as research, statistics and field operations/trainings when required
- We moved into our former home in 1995 and some years later. The residents were required to take over the Board of Trustees when the contractor had sold 80/85% of the 300+ lots. The residents held a meeting and voted/elected five residents to move forward the business of the subdivision, myself and four other residents were elected to the Trustee positions. I served 8 years as the position of President, and left the board when my father passed. During my service on the Board, we as a committee were successful in many ways as we worked well together but more so we worked with the residents. If I am elected to the Board of Tiara at the Abbey, I hope that the Board can achieve success while also building trust, being open and honest, maintaining consistent applications / expectations and be willing to listen to the residents.

Thank You

James Collier
